

MANUFACTURER OF TRIPLEX PLUNGER PUMP

LYNX
PRESSURE SYSTEM

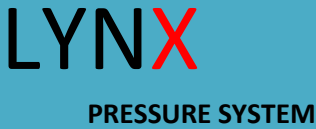

PRODUCT RANGE: -
Up to 1000 bar Pressure
Up to 450 LPM

Lynx Pressure System is a professional Manufacturer and Supplier of High Pressure Triplex plunger Pumps which are highly suitable for Industrial Cleaning application. Due to its high efficiency our Triplex plunger pump is suitable for Tube and pipe cleaning, Surface cleaning, boiler tube cleaning, condenser tube cleaning, , Evaporator Cleaning, Marine Application etc...

We supply full system with trolley mounted base frame for easy movement, with accessories such as high pressure gun, High pressure water blast hose pipe, Nozzles, PRV, extra accessories as per need.

Who We Are

Manufacturer & Service Provider of Triplex Plunger Pump.

Lynx Pressure System is a reputed manufacturer, supplier and importer of Water Sand Blasting Pump, Tank Cleaning System, Paint & Rust Removal System, High Pressure Test Pump, Vessel Cleaning System, Tube Cleaning, Heavy Vehicle Pressure Washer, Misting System, Fogging System, Hydro-Blaster Pressure Washer, Hand Pump For Hydro Test, Pumps Spare Parts, Nozzles, etc. We have succeeded to become a trustworthy organization for our clients with the support of our dedicated team members. Our professionals have wide industrial knowledge and strive hard to serve our clients with the best. Hence, we our products are highly popular among our clients for their superior performance, quality and offered at clients specified specifications.

Our Products: -

| Pumps & System | Accessories | Pump Spare Parts |
|-----------------------------|--------------------------------|---|
| Car Washer | Nozzles | Car Washer Spare Parts |
| Heavy Vehicle Cleaning Pump | High Pressure Gun | Heavy Vehicle Cleaning Pump Spare Parts |
| High Pressure Cleaner | Pressure Unloader Valve | High Pressure Cleaner Spare Parts |
| Hydro blaster System | Pressure Regulating Valve | Hydro blaster System Spare Parts |
| Motorized Hydro Test Pump | Safety Valve | Motorized Hydro Test Pump Spare Parts |
| Manual Hydrotest Pump | Rigid Tube Lance | Manual Hydrotest Pump Spare Parts |
| Wet Sand Blasting Pump | Insulated Lance | Wet Sand Blasting Pump Spare Parts |
| Pipe & Tube Cleaning Pump | Pulsation Dampner | Pipe & Tube Cleaning Pump Spare Parts |
| Paint Removal System | High Pressure Hoses | Paint Removal System Spare Parts |
| Misting & Fogging System | Pressure Gauge | Misting & Fogging System Spare Parts |
| Sewer Jetting System | Ball Valve & Strainer | Sewer Jetting System Spare Parts |
| Descaling System | Water Sand Blasting Attachment | Descaling System Spare Parts |

Our Service:

- Triplex Plunger Pump Service
- High Pressure Plunger Pump Manufacturing

Year of Establishment: - 2011

Nature of Business: - Manufacturer, Importer, Exporters, Service Provider

Production Type: - Automatic & Semi Automatic

PRODUCT RANGE

We are introducing our Products with Pride & Pleasure of High Pressure Triplex Plunger Pump Series.

HHP SERIES – HHP series **pressure washers** are Imported Pumps & consisting of HHP series **plunger pumps**. These **high pressure cleaners** are suitable for surface cleaning / general cleaning etc. Italy Imported **Make - Hawk**

TS SERIES – TS Series pump are low pressure high flow pumps. These high pressure cleaners are suitable for Vehicle washing & small scale industries for domestic cleaning process.

LPS Series – LPS Series pump is High Pressure pumps. This pump is suitable for hydrostatic Application in Various Industries & also used in General Cleaning.

BHF Series - Belt Driven High Flow series is suitable for Reverse Osmosis, Cleaning & many other in Industrial Area.

BMP Series – Belt Driven Medium Pressure Series is suitable for Tube Cleaning & Surface Cleaning in Industrial Area.

BHP – Belt Driven High Pressure Series is suitable for Hydro Test in Various Industrial Equipments.

MP – Medium Pressure Series are specially used in Tube Cleaning & Surface cleaning for High Contaminated Area.

MF-HF – This Series is suitable for Surface cleaning in various type of industries with Medium Flow & High Flow.

HP – This series is suitable for Hydrotest, Hydroblaster & Tube Cleaning process in High Contaminated Area with High Pressure.

| Main Series | Min. LPM | Max. Lpm | Min. Pressure | Max. Pressure | Max. Power HP |
|-------------|----------|----------|---------------|---------------|---------------|
| HHP | 14 | 50 | 50 | 500 | 30 |
| TS | 7 | 130 | 35 | 40 | 15 |
| LPS | 1 | 29 | 55 | 500 | 5 |
| BHF | 51 | 139 | 100 | 180 | 40 |
| BMP | 22 | 55 | 240 | 500 | 40 |
| BHP | 5 | 17 | 750 | 1200 | 40 |
| MP | 35 | 280 | 135 | 1000 | 100 |
| MF-HF | 62 | 445 | 145 | 700 | 240 |
| HP | 43 | 52 | 1000 | 1100 | 120 |

We supply full system with trolley mounted base frame for easy movement, with accessories such as high pressure gun, High pressure water blast hose pipe, Nozzles, PRV, extra accessories as per need.
